

FOR IMMEDIATE RELEASE

ACOM Solutions, Inc. Awarded Coveted Microsoft Gold Certification

LONG BEACH, California, September 22, 2009 – ACOM Solutions, Inc., midmarket developer of [integrated document management](#) solutions, has been awarded Gold Certification within the Microsoft Partner Program, it was announced today by Senior Vice President James R. Scott.

According to Microsoft, “Gold Certified Partners represent the highest level of competence and expertise with Microsoft technologies, and have the closest working relationship with Microsoft.”

“ACOM provides a full suite of products for automating the back-office and/or accounting operations within midsize organizations,” Scott said, “and this Gold Certification from Microsoft represents a powerful endorsement.”

ACOM offers an extended suite of [document management solutions](#) that are available both directly from the company and through its own growing partner network. EZContentManager is an easy-to-use browser-based, workflow-oriented solution for electronically managing, sharing and archiving all documents and files originating within and/or outside a department or company. EZPayManager is a payment output management system enabling organizations to send electronic payment and checks in one fast and easy payment run. EZeDocs is a powerful [document output system](#) enabling organizations to merge their ERP data into any business form and send it electronically. EZConnect is an EDI/XML/flat file translation and connectivity tool that facilitates electronic data interchange. Most of ACOM’s solutions are available for use in both the Microsoft Windows and IBM System i (iSeries) environments.

“In achieving Gold Certification, we were required to satisfy a demanding set of criteria in several key categories, including an evaluation of our products by a third-party resource,” Scott said. “We also provided a portfolio of real-world customer references that showed us to be highly skilled in our specific solution areas. We were delighted that so many of our customers

enthusiastically supported us with very positive referrals as we sought Gold Certification.”

“We have long enjoyed a highly positive working relationship with Microsoft and look forward to the benefits of an even stronger relationship as a member of the Gold Partner network.”

About ACOM’s Value-Added Reseller (VAR) Success Program

ACOM’s VAR Success Program enables VARs to start generating leads and closing deals on day one. The program includes a 4-step methodology, with a valuable set of unique Sales and Marketing support tools, including ACOM’s “Lead-Machine Webinars for VARs” (experts show you how to quickly turn your VAR website into a lead machine); ACOM’s turnkey “Pay-per-Click in a Box” Program; “Ready-To-Go Marketing” campaigns; and ACOM’s “Jump Start” Sales Program.

About ACOM Solutions, Inc.

For over 26 years, ACOM has been automating document and payment processes for more than 4,000 organizations, across all industries. ACOM develops solutions that are best suited for tactical deployments in the accounting/financial departments of mid-size organizations. ACOM’s solutions integrate with any financial/ERP system to extend that system’s capabilities and provide organizations with some very significant benefits: the solutions are easy to use; affordable; and are typically implemented within 2-3 days. They dramatically improve the efficiency within an organization by automating their previously manual, paper-based processes. All of these process improvements significantly decrease an organization’s costs, which provides an immediate ROI and quickly justifies the investment in ACOM. Likewise, by incorporating ACOM’s solutions into their product offerings, ACOM’s partners can bring this valuable set of additional cost-saving ERP enhancements to their clients.
