

eNotification Module

Reduce Costs
Automate
Improve Efficiency

- Do you need to eMail payment notifications/pay stubs as encrypted PDF attachments with password protection?
- Are you looking to eliminate the postage, paper, toner, envelope and handling costs associated with printed payment notifications (paystubs)?
- Have you considered providing your vendors with automatic electronic payment notification, i.e. payment details sent through the use of eMail or automated fax?
- Would you like to provide your employees with instant notification of Direct Deposit and T&E* reimbursement?

ACOM has the solution: EZPayManager/400 eNotification Module

- ▶ Interfaces with the laser checks and/or ACH modules of EZPayManager/400
- ▶ Includes the eMail Module and the optional Fax Module.
- ▶ Solves the need for electronic payment notifications by sending PDF file attachments automatically to vendors and employees via eMail or fax, through your existing eMail or fax resources and without the need to modify your existing programs.

Benefits of Sending Electronic Payment Notification Versus Mailing:

- **Reduce mailing costs...** no postage, envelopes, or mailing labels required.
- **Reduce labor costs...** much faster to send payment notifications electronically than to print, stuff, stamp & mail.
- **Reduce costs...** up to 90% by sending payment notifications electronically.
- **Improve service...** recipient companies know exactly when funds will be transferred out of their account(s) for payments.
- **Meet customer/vendor needs...** many companies prefer to receive documents & payments electronically.

ACOM's Payment Management Solutions:

ACOM, has worked with thousands of companies around the world to help them update and enhance their payment processes. Whether you need an enterprise-wide solution or a solution for a single site, ACOM can help.

ACOM's unique EZPayManager/400 Solution Suite enables users to issue either paper checks or electronic payments, on a case-by-case basis, in one easy payment run.

These solutions add significant convenience, efficiency and security features to back-office applications, in addition to the cost reduction benefits. In fact, the United States Treasury recently conducted a study comparing electronic payments to paper payments, and found these results:

- The average cost per transaction was 22.5 times less for e-payments than for paper checks.
- The payment inquiry rate was 32 times less for e-payments than for paper checks.
- The average time to resolve inquiries was 24 hours for e-payments and 14 days for paper checks.

ACOM's eNotification Module is an add-on module of EZPayManager/400 and it integrates seamlessly with your existing accounting/ERP system, without any custom programming! ACOM's eNotification Module makes the process of adding electronic payment notification capability to your current financial application efficient, secure & easy to implement.

About ACOM Solutions, Inc:

ACOM develops solutions that integrate with enterprise applications to enhance back-office and B2B processes for electronic, Internet and paper-based commerce. ACOM's solutions run in all computing environments, and are compatible with all financial management/ERP applications. Solutions include:

- Software solutions that enable users to send and receive e-payments (ACH*) & e-payment notification details (via eMail or fax).
- Software/Hardware solutions to print MICR laser checks, forms and payment notification details.
- Electronic data interchange (EDI/XML) software solutions for e-commerce between multiple trading partners.
- Software to enable/enhance internet-based commerce.
