

ACOM Secure Certified MICR Printers

Phaser 3250N
Prints 30 ppm

Phaser 4510N
Prints 45 ppm

Better by design:

- Tested and certified to meet ABA and ANSI MICR printing standards
- Provides an array of security features for the prevention of check-fraud
- Guaranteed MICR printing performance and satisfaction

ACOM's MICR printers are guaranteed to eliminate rejected check problems, payment delays, and associated bank fees commonly associated with the use of basic laser printers not modified for check printing.

ACOM is a "Single Source" solution vendor

One call to ACOM can provide you with a complete turnkey solution. ACOM's "single source" approach will save you time, money and confusion, since you only have to go to one place for:

- Hardware (printers, and post-processing equipment)
- Software
- Installation
- Training
- Supplies (MICR toner, check stock, etc.)
- Tech Support

MICR Printer Features:

- The 3250N and 4510N MICR printers come with a key-lock that has 3 positions/modes or with an additional security drive:
 - "MICR On" -- to print secure MICR documents (engages the MICR toner cartridge)
 - "MICR Off" -- to print non-MICR documents
 - "Printer Off" -- to disable all printing capabilities
 - Security Drive -- a removable secure USB drive that can be removed after each payment run, for secure storage of signatures and MICR font
- The 4510N MICR printer can also be purchased with additional secure paper trays and key locks.
- Every certified MICR printer is backed by our industry-leading 30-Day Total Satisfaction Guarantee, in addition to our exclusive MICR Printer Guarantee.
- Our certified MICR laser check printers are built on the Award-Winning Xerox' Office/Network Laser Printer technology.
